Aplomado brings an intelligent dash cam into your vehicle to provide you with real-time information that will **reduce accidents, increase safety and lower your cost of insurance by 30%.**

Aplomado is your safety solution, not just another tool. The Aplomado Cam provides drivers with risk information and ensures fleet managers see only relevant videos and statistics. Our unique software is driven by AI, leaving you more time to focus on your business while we protect your fleet.

The Aplomado Cam automatically anonymizes personal information and is data protection compliant.

Safety first   30% lower cost   >30% fewer accidents

No need to buy hardware, the Aplomado Cam and related services are included in a monthly service fee.

Accident alerts
Be informed about critical events in your fleet in real-time.
